21 April 1953

MEMORANDUM FOR: Training Liaison Officers

SUBJECT: Dual Track Audio-Visual Unit

1. The Office of Training now has available a prototype of a dual track audio-visual unit primarily for language teaching purposes. The unit combines the presentation characteristics of a dual track magnetic tape recorder and a film strip projector.

2. The characteristics and capabilities of this prototype, as designed by TSS, are detailed in Attachment A of this memorandum. Some of its known language teaching uses and suggestions for other training and possible operational uses are given in Attachment B.

3. The prototype is available for demonstration to any individual or to a group not in excess of five persons. Arrangements for such can be made by contacting [redacted]

[redacted] If you believe it may be of use to your office, it is suggested that a demonstration be arranged so that you may submit to the Office of Training recommendations for modifications of the unit and suggestions for its additional use.

4. Any comments or recommendations should be forwarded to the Director of Training, Room 1024 I Building, by 15 May 1953 in order that final plans may be made for development and production of the unit.

[redacted]
MATTHEW BAIRD
Director of Training
